### Day 1 of the 2008 NAS-TRACK Detroit 6 Day

Going into the final Madison Team Green had a slight lead with 27pts. Three Teams were close behind - Team Blue with 23pts, Team Neon with 21pts and Team Pink with 20pts. With 5 sprints in the Madison the real race began.

1st Sprint was won by Team Neon followed by Team Blue then Team Green. 2nd Sprint was won by Team Neon again followed by Team Pink then Team Green. 3rd Sprint was won by Team Green followed by Team Neon and Team Ti. 4th Sprint was won by Team Green followed by Team Neon and Team Blue.

Going into the final sprint of the night Team Green had 52pts, Team Neon with 45pts, Team Blue with 33pts, Team Pink with 29pts, Team Ti with 24pts and Team Red with 20pts.

So Team Green could win it all as long as they came in no further than one place behind Team Neon. Going into the final laps Team Green's Matt Rose charged off the front forcing Team Neon's Craig VonSeeger to stay on his wheel and with a gallant effort he stayed glued to the wheel and then did a nice exchanged with his partner who opened up a gap to win the final sprint. But Team Green Cody Brown and Matt Rose did what they had to do and finished second in the final sprint to win the night by 1pt.

Congratulations:

Detroit 6 Day - Day 1 Winner's Team Green, Cody Brown & Matt Rose! A special "good job" to Team Red Blaine Benson & Nick Console. They continued throughout the night to charge over the top. A great effort.
