*New Track Record for age group.

Following the time trial events, Cale, Cody, Luke and William contested a scratch race with Cale holding off a strong charge by Luke followed by Cody and William.

Next, a pair of match sprints that delighted the hillside spectators. First up, Cale and Luke. In the first heat, Cale lead Luke out and stayed close till with just under a lap and a half to go the pair moved up the track when Luke jumped from high in turn 3 and won the drag race to the line. In heat two, Luke had the lead out and pinched Cale to the top of the track and the two covered each other's moves bringing cheers from all watching. On the last lap Luke took advantage of the banking to get the jump and the gap he needed to get to the line first.

The second pairing matched Cody and William with William leading out the first heat. Cody held onto William's wheel till the last lap when he jumped over the top and took the advantage to the line despite William's hot pursuit. In the second heat, it was Cody's turn to lead it out and he went hard from the race director's command "Riders Roll". Cody was on top of his gear quickly and William's beautiful aero position was not enough to reel in Cody.

Great riding and racing tonight.

Special thanks to all the volunteers who helped.
