NAS-TRACK Team Racing - Friday Night Series Practice – Warm Up Race

Friday June 4, 2010
International Velodrome at Bloomer Park

Overall Evening Results

Anticipation was high for the high speed action of NAS-TRACK racing but the fans on the hill would only get a small taste of the action. A six o'clock shower followed by some drizzle passed through the beautiful Bloomer Park, but true to form the track surface was dry before the scheduled start of racing.

The familiar faces on the spectator hill and the track welcomed new riders who got their first taste of action in Friday Night series before the rain moved in.

Flying 200 meter TT's were done by all the racers followed by a pair of hotly contested scratch races for the Juniors. Under the lights, the "AA" racers took to the boards for a 16 lap scratch race and as they finished, the rain returned and brought an end to the racing for the evening.

The 2010 NAS-TRACK Friday Night Series gets underway on Friday June 11th at 7:30 P.M.

Results - flying 200M TT

Junior

Evan Saunders.....	13.68
Richard Rainville.....	13.90
